ganesh.thondikulam@kp.org

## ABSTRACT

Data scientists today spend significant portions of their time in finding and preparing data rather than analyzing, building and deploying models. The challenges and opportunities will be explored by using a design thinking approach, to increase Analytics / ML throughput at scale..

## BIOGRAPHY

Experienced IT Leader with a distinguished career architecting and leading the on-time and within budget design and delivery of enterprise-wide solutions to meet business, financial and market demands.

Specialties:

Strategic Business Planning  
Systems Architecture & Framework  
Technology Direction & Roadmap  
Business Process Integration  
Best Practices & Standards Design  
Technology Solutions Design  
Project Planning & Management  
Cross-Functional Team Leadership  
Customer & Partner Relations.
