ACKNOWLEDGMENT

People behind the scenes helped see this work through. Each had unique contributions. To all go my deepest appreciation.

Mimi Trosdal, for painstaking, patient and constant guidance, and for sharing her vision with me.

Fr. Eugene Verstraelen, for his theory of language which heavily influenced the orientation of this study.

Fr. Wilhelm Flieger, for giving me his time and comments as a member of the panel of examiners.

Anna Chang, for sincere criticism and for assistance in the processing of the statistical data.

Cleribeth Tan, for helping me with my statistical data.

The VECO EDP Staff, for computerizing the data.

Lourdes Javellana, for typing this thesis.

My parents and family, for silent yet obvious support.

My mother-in-law, for understanding.

My husband, for believing in me.
