by  
LILIA FE M. BENGIL

May 2014

## APPROVAL SHEET

This Thesis entitled "AUDIO-VISUAL RESOURCES OF ARTURO EUSTAQUII LIBRARY AND INFORMATION CENTRE: A PROPOSED ACQUISITION PLAN" prepared and submitted by LILIA FE P. MARTINEZ in partial fulfillment of the requirements for the degree of MASTER OF SCIENCE IN LIBRARY SCIENCE has been examined and is recommended for acceptance and approval.

MARIA LUISA K. BURDEOS, MSLS  
Chair, Examination Panel

MARILOU P. TADLIP, EdD  
Adviser

CRISTITA L. LANTICSE, MSLS  
Member

RAINERA C. BOHOLST, MSLS  
Member

MARIA LUISA K. BURDEOS, MSLS  
Chair, Department of Library and Information Science

Accepted and approved in partial fulfillment of the requirements for the degree of MASTER OF SCIENCE IN LIBRARY SCIENCE (THESIS).

Comprehensive examination PASSED on: May 27-28, 1996.

RAMON S. DEL FIERRO, PhD  
Dean, College of Arts & Sciences

Date Approval

## ACKNOWLEDGMENT

The researcher is grateful to our Lord Almighty and to all the wonderful people who have given their assistance in many different ways for the completion of this thesis.

This study has been conducted under the present supervision of the Chairman, Department of Library Science, University of San Carlos Cebu City. She cannot express her high regard and gratitude in any infinite number of words to Miss Maria Luisa K. Burdeos. Without her tireless and welcoming support, she would not been able to finish this work. She is indebted and thankful because the chair's upbeat personality, kindness, encouraging support and willingness to help have tangibly and greatly improved the quality of my work and brought it up to its present manuscript.

In deep appreciation she would like to express her sincere gratitude to the following: Zamboanga A. E. Colleges, Zamboanga City, especially to the President Arturo F. Eustaquio III and Madam Helen B. Madroñal for allowing her to take Master of Science in Library Science MSLS in the University of San Carlos, Cebu City and in signing the letter of recommendation;

Fund for Assistance to Private Education (FAPE) and the College Faculty Development Plan (CFDF) of the Zamboanga A. E. Colleges for the continued support;

Dr. Bashiruddin A. Ajihil; Filoteo Franco for their encouragement and motivation; and Ruben C. Angeles (deceased) ; and Rubelee Macoycruz for their assistance and guidance;

Dr. Marilou P. Tadhilip, for the advice and suggestions; Mrs. Rainera C. Boholst and Mrs. Cristita L. Lanticse, members of the thesis committee, Mrs. Evelyn A. Sanson, former thesis adviser, Mrs. Annabelle P. Acedera, former panelist and the late Mrs. Epifania L. Magallon, for their constructive criticisms and suggestions; Mr. Romeo Gavito for generously sharing valuable ideas and expertise as well as for the guidance and direction;

Her valued friends, Mesdames Deborah Seballos, Gemma S. Sotito, Annabel Martinez, Dulcinia M. Falcatan, Fe Planas, and Messrs. Rex Sanson and Jayson Lardizabal for their moral support especially at the time when the researcher was in distress;

Her sources of inspiration: Zulrashdy Martinez Hussin, Jhan Rai Martinez Bengil and Didier De la Ruelle and to all those who in one-way or the other extended their helping hands.

Lilia Fe M. Bengil  
Researcher

## ABSTRACT

The study looked into the types, size, subjects covered, and recency of audio-visual software collection, the utilization as indicated in faculty syllabi and the existing conditions of audio-visual hardware and facilities of Universidad de Zamboanga Arturo Eustaquio Libraries and Information Centre. It further sought to answer specific problems on the support of the audio-visual resources to the curricular offerings in order to propose an acquisitions plan.

It used the descriptive method of research specifically the survey and documentary analysis through a questionnaire, an inventory checklist, audio-visual records, and course syllabi.

The projected audio-visual software collection is relatively inadequate or minimal in terms of types and size. The percentage of acquisition declined over the years. Of the 47 types of audio-visual hardware, 41 are in good condition. The audio-visual room needs expansion, storage space and media projection area. The integration of audio-visual software in the course syllabi is consistently done by faculty members in five programs namely School of Education Arts & Sciences, School of Business Management, College of Engineering & Information Technology, Institute of Technical Education, and School of Allied Medicine. Only in the last five years did the School of Criminal Justice and Graduate School teachers indicate use of audio-visual materials in their syllabi. This makes all faculty members in the university conscious of using teaching aids and devices.

Based on the findings, continued acquisition of audio-visual resources was recommended and a five-year-acquisition plan was formulated for implementation.
